

The innovative construction of our machine enables sandblasting of slightly curved tubes.

The protective cover enables sandblasting of perforated tubes.

Tube  $\varnothing$ 250mm, 12m

Start-point with centering ring

Tube  $\varnothing$ 480mm, 12m

## Inblast 200/640 -12

Machine for Inside Blasting of Tubes with different diameters

This machine covers diameters from  $\varnothing$ 190mm to  $\varnothing$ 640mm, lengths could be from few meters up to 12 meters.
