

GLASS-O-MATIC 20 ECO

BASIC TECHNICAL INFORMATION

PROFESSIONAL MACHINES FOR GLASS TREATMENT

Our company has been producing this line of sandblasting cabinets for twenty years and updated them with new technologies each year.

All our cabinets GLASS-O-BLAST and GLASS-O-MATIC have one of the biggest working space, which you can open on the top and than you have not any limit with your glass-work! Complete filtering and recycling system are built in, with automatic cleaning and control system. For tightening of working area we use our own patent system Air bag, and no dust or sand can come out from the cabinet.

AUTOMATIC SANDBLASTING CABINET GLASS-O-MATIC 20 ECO

Dimensions of the cabinet:	1300 (2800 with extensions) x 1300 x 2150 mm
Working dimensions:	1150 x 1450 x 550 mm
Blast gun vertical movement:	1450 mm
Pass-through openings for glass:	H=1500 x 100 mm max. Width
Loading capacity:	350 kg

GLASS-O-MATIC 20 ECO

Standard equipment
